

ENGINEERED MOP YARNS

Patrick Yarns' conception was initiated from a demand within the textile industry for an industrial mop yarn manufacturer that cooperated closely with and realized the needs of their customers. Our success is a proven formula of partnering with customers, learning their needs, supplying them with a unique product line along with new and innovative yarns to increase their profitability and market share.

All of our mop yarns are proven to be consistent leaders, with excellent performance and market recognition, and our state-of-the-art manufacturing and quality control capabilities ensure the highest level of reproducibility. Patrick Yarns' world-class facilities are extremely versatile and capable of reacting quickly to unexpected peak requirements. Our large, conveniently located distribution center allows our customer service team to forecast and warehouse available inventory to fulfill our customers' market demands.

Innovative products introduced to the mop industry from Patrick Yarns

- Anti-Microbial yarns
- Low Linting, cotton-rich dust mop yarns
- Hi-Performance synthetic dust mop yarns with proprietary blend
- Micro Power™ Yarns – Incorporating micro-denier fibers
- Fiber-Tac® – The ultimate in mopping performance
- Earth SPUN® – Colored yarns with 50% and more recycled fibers
- ACTION READY® – A cotton-rich yarn requiring no break-in
