

GLOVE YARNS

Patrick Yarns' track record of partnering with customers, learning their needs and developing yarns to increase their profitability and market share stands apart in the industrial glove yarn markets. We provide our customers with a superior, innovative and cost-effective product line. Our modern state-of-the-art manufacturing facilities ensure the highest level of quality and repeatability. This special attention and dedication gives our customers the "edge" needed in today's highly competitive markets.

Through this commitment, Patrick Yarns has accumulated unrivaled applications and processing experience in an impressive array of different and high performance fibers. This is a profitable and dynamic tool for our customers. Our team can effectively select from many different fiber types and grades to engineer yarns that meet our customers' varying demands. This, coupled with our expert capability of delivering different spinning solutions, allows our customers the unprecedented ability to market unique and profitable products.

Innovative products and capabilities delivered to the glove market:

- Yarns engineered for solutions in cut and/or heat protection environments
- Anti-microbial yarns with 'proven results'
- Nylon blends with exceptional durability
- EarthSPUN® Yarns, combining low environmental impact solutions with superb economic pricing.

Fibers and Yarn Composition:

- **FIBERS:** All natural and most manmade fibers including Twaron®, Conex®, PBI, cardable glass, stainless steel, EarthSPUN® fibers, colored acrylics and blends thereof.
- **OPEN-END:** 12 Ne to 2 Ne and 20.3 Nm to 3.39 Nm
- **RING SPUN:** Please consult a Patrick Yarn sales representative for your requirements.
- **DREF SPUN CORE/SHEATH CONSTRUCTION:**
 - SHEATH: All natural and manmade fibers, please consult the PATRICK'S TECHNICAL FIBER FACTS for a complete listing.
 - CORE: Spun yarns, filament yarns, metallic filaments and fibers, monofilaments, Spectra®, fiberglass, and combinations thereof. Please refer to PATRICK'S ENGINEERED YARNS CORE/SHEATH CONSTRUCTION fact sheet.
- **TWISTING:** Up to 16 components including wire or filaments
- **PACKAGE TYPE:** Please consult a Patrick Yarn customer representative for your unique requirement.
